Re: Extension Request for responding to information request Section 114 Letter
Reference No. CAA-02-2016-1465

Dear Mr. Kuhl:

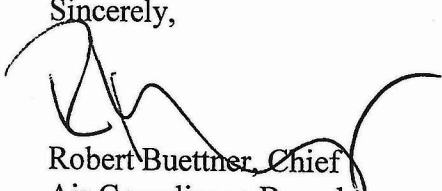

The United States Environmental Protection Agency (EPA) Region 2 office, under the authority of Section 114 of the Clean Air Act, issued an information request letter ("114 letter") to State Metal Industries Inc. ("State Metal") referenced above. The letter with reference number CAA-02-2016-1456 was received by your office on October 3, 2016.

Enclosure II, Part III of the 114 letter requires State Metal to provide information regarding the Facility within thirty (30) days from October 3, 2016. State Metal requested an additional sixty (60) days to respond to this part of the information request due the unavailability of its consultant John Yavorsky (SMI's Environmental Consultant) from Oct 21st to November 23rd.

EPA has reviewed your request for an extension and has determined that the requested 60 days extension to the original due dates for the aforementioned 114 letters is approvable. This letter serves to notify you that a one-time extension of 60 days from the original due date is granted.

You may address any further questions concerning this matter to Victor Tu of my staff at (212) 637-3476.

Sincerely,

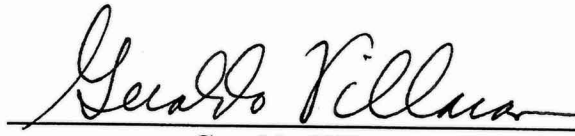

Robert Buettner, Chief
Air Compliance Branch
